

TEENTECH SMART SKILLS:WORKSHOP DETAILS/TIMINGS:

Time and Task	Task	Aim and Support Tips for Teaching Staff
Before 10.00am (Live session start time)	Large screen available for all pupils to see and hear, plus computers/tablets/iPads available for them to share and access activity	Support tips: Please check the livestream works with your set up and that pupils have the ability to send questions through the livestream page either directly, or via the supporting teacher
10:00 – 11.00 Live Stream	<p>Please bring up the TeenTech live stream and press play before 10:00am so that all pupils are watching live.</p> <p>We will introduce the TeenTech Team, our guest hosts and industry experts (if applicable) who will be covering the session topic. If pupils have any questions, they can send them across via the questions/comments box and you can prompt them for answers to any questions we ask throughout the session.</p> <p>Please encourage pupils to engage with the activity and interact with us if they get stuck or have questions.</p>	<p>Aim: The session will encourage pupils to consider the valuable part Smart Skills play within all our lives and our world, now and into the future.</p> <p>The content of the session is designed to help them develop skills and confidence through coding and creative digital media tasks.</p> <p>Support tips: Encourage pupils to work together and be resilient when working through any activities which may be new to them.</p>
Deadline to submit pupils' work	<p>We will send you upload links where you can submit pupils' work – using photos/screenshots/ audio/visual recorded clips.</p> <p>According to numbers of participants we may need to limit the number of projects submitted due to time restraints.</p>	<p>Support tips: Support pupils in putting together their project ideas, and submitting them.</p> <p>If you need to pick from multiple projects, we suggest running a dragon's den style presentation to peers.</p> <p>Help them upload their work and encourage them to submit questions for the experts.</p>
Follow up Ask the Experts and Feedback session	During this one-hour session TeenTech presenters and industry experts will feedback on the submitted work. Pupils will be able to ask further questions throughout the session.	<p>Aim: To inspire and encourage confidence in the pupils by receiving individual feedback from leading industry experts.</p> <p>Sharing and celebrating success</p>
